# NEW DECOUPAGE, NEW TRICKS!

The revolutionary new decoupage formula from Martha Stewart Crafts™ is unlike any other on the market: it's the first and only decoupage finish that's dishwasher safe and machine washable. Use with our accessories and tools to make the art of decoupage easier and more beautiful than ever!

**What is Decoupage?** Decoupage is the decoration of a surface with applied paper cutouts or fabric die-cuts, often finished with varnish or lacquer.

## THE BASICS

**Gloss:**  
Creates a shiny finish.

Use the basics and other finishes on paper, wood, glass, metal and many other surfaces. Both formulas are dishwasher safe.

**Matte:**  
Creates a dull or non-shiny finish.

## FABRIC FINISHES

**Fabric-to-Fabric:**  
Adheres fabric to a fabric surface. When dry, the finish is nearly invisible with little shine.

Use these finishes when working with fabric. Both formulas are machine washable.

**Oilcloth:**  
Achieve a high gloss effect on fabric surfaces. Traditional Oilcloth is a fabric treated with a waterproof finish. This formula is water resistant.

## SPECIALTY FINISHES

**Opalescent:**  
Creates a pearly or iridescent finish.

**Glitter:**  
Basic gloss formula with glitter particles added.

**Coarse Glitter:**  
Basic gloss formula with chunks of glitter.

**Glow-in-the-Dark:**  
Make a project glow (needs to charge in sunlight).

**Antique Finish:**  
Create a vintage or antique look.

## PHOTO TRANSFER FINISHES

**Light/Clear Surfaces:**  
Specially formulated to work on white/clear surfaces such as glass and ceramic. It will give a transparent finish to any project. Works best when using the decal method.

These formulas are machine washable when used on fabric. When used on glass, hand washing is recommended.

**Dark Surfaces:**  
Specially formulated to work on dark surfaces. This formula prevents the dark surface from showing through the photo.

## TOP COAT

**High Gloss Finish:**  
This is a top coat finish that is used to create an epoxy-like, shiny effect. Use in conjunction with either the matte or gloss finish for adhesion. This is the only formula that is not washable but can be cleaned with a damp cloth.
